TUFTS & NYSTROM;

TELEGRAPHIC

Telegraphic Ticks

New York, 25.—The late Francis P. Schoals left \$250,000 to charitable institutions.

Nicholas Tenbosch, a corn speculator of Liverpool and San Francisco, missing a couple of weeks, has been found in the insane asylum on Ward's Island, where he had been placed by the authorities.

Baltimore, 25.—The German guests were banqueted to-night by citizens.

Burlington, Ia., 25.—The river is still rising. It is two inches above the high water mark of '80. Heavy losses of crops are reported.

Toronto, 25.—Hanson telegraphed Tractett that he will row him a three-mile race, provided it will be rowed over the same course as the former race with Pros, two weeks later.

St. Louis, 25.—The Post-Dispatch, Kansas City: Major John A. Mix, Ninth Cavalry, U.S.A., died on the Santa Fe train this morning, while en route for Fort Cummings, N. M. He leaves a family at Westminster, Conn.

Keokuk, 26.—The river rose last night several inches and more expected before the water begins to recede. The inundation is the worst ever experienced, and is twelve inches above that of last spring.

MacVeagh Needed.

Washington, 25.—The President has again asked MacVeagh to remain because he warmly admires him, or because he desired to disarm criticisms in the star route matters. MacVeagh is said to have offered the other secretaries by his frank avowal that the President had the right to choose his own advisers. MacVeagh says though the star route prosecution may fail, it will not be from lack of great publicity. There would be evidence enough to send a dozen men to the penitentiary, but the whole moral weight of the administration was necessary to secure conviction. The accused have plenty of money and backing, social and political and the press. Jurors are inclined to lean towards the accused in this district. The President fully understands the matter, and he hoped he would fulfill the highest expectations of his friends.

Wheat.

New York, 25.—The Commercial Bulletin makes a careful estimate on the basis of the figures furnished yesterday by the department of agriculture in Washington, in regard to the acreage and yield of wheat per acre in each of the states this year, and concludes the total harvest of the country to be 381,400,000 bushels of wheat, against 451,100,000 in '79, and by a revised estimate it shows that the wheat crop of 1881 falls 117,100,000 bushels below that of last year. From these figures must be deducted the increase of old wheat carried into the new crop this year over the same item for last year. On the other hand, allowance must be made in estimating the exportable surplus for increased home requirements, arising from the natural growth of the population and the unprecedented emigration, much of which has settled in the wheat growing regions.

Guitteau

Washington, 25.—Attorneys for Guitteau notified the district attorney to-day that they will make a motion to-morrow for the postponement of the trial of the prisoner from November 7th to the 21st.

Washington, 25.—After argument by Scoville, Judge Cox postponed Guitteau's trial until November 14. Scoville stated in his opinion that the court had jurisdiction, and intimated that he would not raise any question on that point.

District Attorney Cerkhill received a telegram from Judge Porter, New York, stating that he will assist government counsel in the prosecution of Guitteau.

Judge Lawrence, assistant comptroller of the treasury, decided that Guitteau's witnesses living over 100 miles outside the jurisdiction cannot be paid by the government.

Casualties.

Dayton, 25.—Two were killed and three wounded by a boiler explosion in Pinneo & Daniels' spoke and hub factory.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

This standard article is compounded with the greatest care. Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff; and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual, or desirable. Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it the best preparation for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the beard from gray or any other undesirable shade to brown or black, at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color which will neither rub nor wash off.
